Department of Information Science, University of Osijek, Croatia

- Valuable private library of professor Pavle Tekavčić was donated to the University of Zadar. It contains monographic and periodical publications
- To describe the condition of the private library collection Pavle Tekavčić and create catalogue of damage, the sample of 50 books was taken and described
- Taking into account criteria for the selection of materials as well as the type of users, 55 books were selected for digitization
- This number in the future can grow, depending on financial ability of the University of Zadar and needed time for the process of digitization
